**That Ocean Pier.**—The engineer has completed the plans and the contractor has been looking the ground over for the pier to be built out into the ocean in front of Hotel Moore by the proprietor of that hotel and his associates. It will extend out into the sea a distance of 600 feet, and patterned after those of the Atlantic summer resorts, and will prove an attraction of which we all feel proud. Unless, however, there is a certainty of its completion before the middle of July, and the contractor seems sure that it can be, work will not be commenced this season.—Seaside Signal.

**The San Francisco Moving Picture Company** presenting moving pictures, slides, illustrated songs and acts at Logan Hall tonight and Sunday night of the earthquake and fire of San Francisco the most appalling disaster of modern times. The moving picture and slide scene will be explained as presented by members of the company who were present at the time of this great disaster. The latest song entitled the burning of "Frisco Town," beautifully illustrated will be rendered by Mr. Harry Lorraine, premier baritone. Our citizens are promised a most delightful evening's entertainment. Reserved seats now on sale at Hoefler's candy store. Immediately after the entertainment a grand concert and dance will be given by the assembly club. Popular prices. 2t.

**Lumber Demand Grows.**—Lumbermen and owners of timber lands in the Northwest look for a sharp advance in prices of both lumber and logs as a result of the destruction of cities and towns in California. These places will all have to be rebuilt, and the only available lumber in the country is in Oregon and Washington. Of course steel will enter largely into the new structures, but lumber for floors and ceilings, as well as for docks, sidewalks, fences, etc. The San Francisco demand alone will reach millions of feet monthly as soon as things get going again, and the mills of the Northwest will be incapable of supplying it. Such large lumber companies as the Weyerhaeusers and the Booth-Kelley Company will have to add largely to their present mill capacity, and the lumber industry alone will employ thousands of men where now they employ hundreds.—Tillamook Herald.

**Generous Musical Treat.**—The concert given at the Star theatre yesterday afternoon, by the Astoria Musical Union, in aid of the suffering musicians of San Francisco, was a creditable and generous treat to a big crowd of people and netted a handsome purse for the beneficiaries. The work was done by a bevy of musicians who grouped themselves together for this one kindly purpose, and considering the fact that they have been but a few days preparing for the public appearance of yesterday, the results, in a critical sense, were remarkable. Their program was ample in numbers and the concert work was delightful, the whole affair reflecting happily on their skill as well as their friendliness and comradery. The solo numbers were splendidly rendered, the work of Signor L. O. Auletti, the violinist, being remarkably fine; the trombonist, James Miller, receiving thoroughly deserved encores for exceptionally fine work; Miss Marie Wandereth, the saxophone soloist and flutist, winning repeated recalls for unexceptionable rendering of the numbers assigned her, and Miss Elaine De Forrest, who served as accompanist, and contributed a difficult and beautiful number in a high, flexible and cultured voice, was promptly and adequately rewarded. The hypercritics were, luckily, absent, and the whole schedule of music offered was enjoyed from beginning to end, and the measure of merit, to leader and to contributor, all through, must be measured by the real pleasure of those who had the good fortune to be present at the concert.

### TWENTY DOLLARS REWARD.

A reward of twenty dollars will be given for recovery of the body of Matt Hummasti who was drowned; the reward will be given by the Finnish Brotherhood. John Taikka, secretary. 5-16-3t.

**New Elevator.**—Ford & Stokes now have in operation a fine new elevator. The elevator was constructed by the Pacific Iron Works of this city.

**Arrange For Regatta.**—On Tuesday evening next the regatta committee will hold a meeting to arrange for the program for the coming regatta.

**Cleaned Reservoir.**—Workmen yesterday cleaned out the little reservoir on Irving avenue. When the water had been drained off, two fish were found in the place. One was quite a large size.

**Improvement Made.**—The debris in front of the new hospital has been removed, and the space in front covered with black sand. A fence has also been erected around the lawn.

**Leak in Pipe.**—The water pipe under the street at the corner of Fourteenth and Commercial street sprung a leak yesterday and necessitated several hours work to repair the break.

**To Build Pier.**—The pile driver and lumber and other necessary materials for the construction of the ocean pier at Seaside, will be sent by rail today to that place, and operations will be started at once.

**Accepts Invitation.**—The invitation of the Willamette Chautauqua Association extended to Senator C. W. Fulton, to deliver the oration of the day at the special fourth of July celebration to be held in Gladstone park, has been accepted by the senator.

**Small Blaze.**—The fire department was called out yesterday afternoon to extinguish a small fire which had started on the roof of David Smith's residence at Fourteenth and Irving avenues. The blaze evidently started from a spark from an engine in the vicinity. The damage was nominal.

**Dies Suddenly.**—Oscar Nordstrom died suddenly yesterday morning at the home of his sister on Water street of heart disease. The deceased was aged about thirty years and leaves a mother, brother and three sisters to mourn his loss. Arrangements for the funeral have not yet been made.

**Mill Men to Confer.**—Today a conference of the saw mill men of the Columbia river district will be held in Portland when the matter of the recent raise in the price of logs made by loggers, will be taken up. As it now stands it is likely that millmen will be compelled to raise the price of lumber to meet the extra price in logs. Other questions relative to the interests of the lumber industry will be discussed.

**Address Graduating Class.**—Rev. W. S. Gilbert went to Clatskanie last evening where he addressed the graduating class of the public school.

**Whist Social.**—A pleasant whist social was given by Gateway Rebekah lodge last evening at its edge rooms, to a number of invited guests. Refreshments were served.

**Held Meeting.**—Last evening in the parlors of the Grace Episcopal church, the Seamen's and Fishermen's Friend Society held a meeting, at which time the work of the organization was considered.

**Bids Opened Today.**—The Astoria Water Commission will open the bids filed in behalf of the clearing of the reservoir site, today. And, it is said, the work will be expedited as quickly as possible in view of the importance of beginning operations there during the present open season.

**May Sell Manzanita.**—The recent action of congress in taking away the \$40,000 which was to have been used in repairing the lighthouse tender Manzanita, and adding it to the amount appropriated for the construction of the new lighthouse tender for this district, seems to show that the Manzanita is considered unfit for service in its present capacity, and will be sold. The Manzanita is now lying at the Tongue Point buoy depot.

**Open Bids.**—This afternoon bids will be opened by the street committee of the city council for the improvement of Duane street between Sixth and Tenth; for the improvement of Fourth street between Astor street and the railroad track; for the construction of a drain on Melbourne avenue, and the clearing of the right of way on Irving avenue between Eighteenth and the Adair line. At the next meeting of the city council the awards for the work will probably be made.

### HOT CHICAGO WEATHER.

CHICAGO, May 18.—Yesterday was the hottest May 17 for thirteen years in Chicago. Ninety in the shade at three o'clock was the record made in the dome of the Federal building and the heat wave abated very little during the remainder of the day, for the thermometer registered 82 degrees at 9 o'clock in the evening. Three cases of heat prostration were recorded in spite of the lake breeze which prevented a large number of persons from succumbing to the same fate.

### WHO SAYS SO?

The whole eating world of Astoria says so! Says what? Why, that the only place in the city for a genuine, square, well-cooked, comfortable meal, at a modest cost, is the Palace Restaurant, on Commercial street opposite the Page Block. The statement is so general and generous that to doubt it is folly and to believe it and profit by it, the best of good judgment in the eating line. The proof of the pudding is in the eating of it.

### THE PICTURE WORLD.

When you are in need of anything in the photographic line in the amateur way, kodaks, films, plates, cards, mounts, and all the technical details of the business, and want the best and last in the way of artistic development, just go to Frank Hart, the druggist, and tell him so. That is all.

## WHAT IS THE BEST CLOTHING

It is the fashion nowadays for every mother's son of a clothing dealer to claim that "HE" is the only favored one who carries the "BEST" clothes.  
Do you, Mr. Customer, believe that ONE factory, makes all the good clothes in America.

Indeed, some factories who were the ones, but a few years ago, have degenerated and new men, young men, men of nerve, of ambition and of pride have grasped the reins and the M and S or the X and Y Brands of former years, are passed NOW!

Today, new people are to the fore, tomorrow too will be brushed aside, by younger, more vigorous men with newer ideas and so the world has, does and ever will, move on.

The question therefore is: which one of your local clothiers is the most aggressive, the most up-to-date one; who is it that will take up new ideas, new makes FIRST?

When you have answered that question, then you can safely decide as to who "DOES" come nearest to that ideal.

"Don't judge a firm by its pretensions."

"Judge a clothier as you would a preacher."

"A doctor, a lawyer, a mechanic, etc."

"Judge every man or firm by the
